SPECTRAWIZ UPDATE FOR VISTA USERS

To enable proper use of StellarNet's SpectraWiz software, you must first allow Administrative privileges to the program when using the SpectraWiz software with Windows Vista operating systems.

Instructions:

- 1) Right-click the SpectraWiz program icon
- 2) Select Properties
- 3) Click the "Compatibility" tab
- 4) Check the "Run this program as an administrator" box under the Privilege Level section.
- 5) Click the OK button

	Create Shortcut Delete Rename Properties	Privilege Level	
		Show settings for all users OK Cancel Apply	

To disable the Windows prompt that asks whether or not to allow access to SpectraWiz every time the software is opened, use the following procedure:

1) Double-click the User Accounts icon located in the control panel.

2) Select "Turn User Account Control on or off."

3) Uncheck the box and restart the computer.

Control Panel + User Accounts + Turn User Account Control On ar Off	• • Search	P.
Turn on User Account Control (UAC) to make your computer more secure		
User Account Control (UAC) can help prevent unauthorized changes to your computer. We recommend that you leave UAC turned on to help protect your computer.
