

New Products and Features for 2018

MINI RUGGED SPECTROMETER SYSTEMS

A Universe of Spectrometer Systems

New Spectrometer Features and Upgrades for 2018

Enhanced Electronics

- Increased Exposure times (8 min)
- High Speed Burst Capture Mode
- Integrated Gain Controls

Stellar-RAD Handheld Spectroradiometer

- Sleek New Design
- Total Irradiance & Illuminance
- CCT, xy Chroma, Dom Wave, Purity
- NIST Traceable & Rugged

HR-X Hi-Res Spectrometers

- Increased optical path provides 2x resolutions over other models
- Resolving power > than 0.05nm
- Many models available from 200-1100nm

A Universe of Raman Options

Low Cost Leaders in Raman Spectroscopy Systems

- High Resolution Raman Spectrometers
- 405, 532, 633, 785, 830, 1064nm options
- Ramulaser Raman Lasers
- Raman Probes & Accessories
- StellarSCOPE Raman Microscope System
- Low Cost SERS substrates
- Free SpectraWiz Raman ID Software
- New Forensic Raman Spectral Database

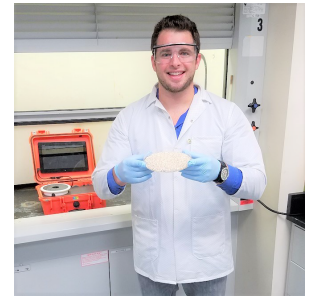

New Raman Spectrometers for every wavelength!

StellarCASE-NIR, LIBS, & Raman

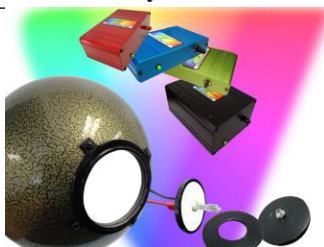

- NIR Composition Analyzer- *Moisture, Fat, Plastics*
- LIBS Elemental ID- *Geo, Mining, Archaeology*
- Raman Raw Material ID- *Forensics, SERS, Pharma*
- Custom Applications & Solutions

Pre-Configured for "Open & Measure" applications with no setup required

8 hour battery Lifetime for field use OR direct connect AC power when in your Laboratory
StellarCASE- Raman, Color, & UV-VIS absorbance also available

Complete NIST traceable Radiometry Solutions

Handheld & Portable

One Stop Shop for Light Measurement

LED - Solar - Display - Laser - Plasma - Lamps

- IRRADIANCE - $Watts/m^2/nm$ & $Lumens/m^2/nm$ & PAR
- RADIANT POWER (Flux) - $Watts/nm$ & $Lumens/nm$
- RADIANCE - $Watts/sr/m^2/nm$ & $Cd/m^2/nm$
- CIELAB xy Chroma, CCT, CRI, CQS

No matter your application, we have a solution for you!

New Calibration Source

Uniform Illumination Sphere Adjustable Light Source
